Decision to extend the production area and increase the production capacity.

The Management Board of Relpol S.A. in Żary announces that it has made a decision and started activities aimed at expanding the production area and increasing the production capacity of miniature relays.

The purpose of the investment is to obtain additional production space and to increase the production potential of the miniature relays group by approx. 30%.

The total cost of the investment is planned for about PLN 13 million, and its completion in the second half of 2020. The investment will be financed with own and external funds.

The decision was made in view of the growing demand for miniature relays and significant use of the current production potential.

The company sells miniature relays for both foreign and domestic markets. These products are widely used in automation engineering.

Legal basis: Legal basis: Art. 17 sec. 1 of Regulation (EU) No 596/2014 of the European Parliament and of the Council of 16 April 2014 on market abuse.
