## industrial bistable relays

Energy saving

- **Energy-saving single-coil bistable relays**  
- they do not require continuous power supply, but only one pulse to change the state (two stable states: open or closed)

- Relays with permanent magnet, designed for continuous operation\*
- For plug-in sockets: on 35 mm rail mount acc. to EN 60715; on panel mounting; for PCB; with terminals for soldering
- DC coils, insulation class F: 155 °C
- W (mechanical indicator) - standard equipment of relays
- Recognitions, certifications, directives: RoHS,
